Hacker-Thon

RITSEC hosted our second ever Hacker-Thon! Members of the club met up in sec-lab to build their own security-related tool for 24 hours. Many upperclassmen took time away from their own projects to teach others. It was a bonding and learning experience for everyone. We're hoping to host another spring semester!

Kick-off BBQ

Our annual kick-off BBQ went off without a hitch. Following our first meeting we hosted a BBQ for members to mingle and get to know each other outside of the classroom. We hope to continue this tradition in the coming years!

Letchworth

RITSEC's first ever Letchworth trip! We had about 30 members join for a fun day of hiking to break up time in the labs.

Swag

SWAG! The swag storefront is up and open to everyone! Each swag item has its own storefront page and swag can either be shipped to RITSEC at RIT or to your own home. Visit swag.ritsec.club to order your swag before the order form closes on **October 25th.**

Mentorship

We officially kicked off our mentorship program for this school year. We have 10 teams working on projects ranging from keyloggers to badge cloning. We are currently looking for **alumni mentors**. If this is something you may be interested in please reach out to our Head of Research, Ian Furr (isf6741@rit.edu).
